

PRESS RELEASE

ANVIREXMORANTA HOLDING PRIVATE LIMITED Officially Adopts Custom ERP & HRMS Platform

ANVIREXMORANTA HOLDING PRIVATE LIMITED is pleased to announce the official adoption of its Custom Enterprise Resource Planning (ERP) and Human Resource Management System (HRMS) developed internally by the Company.

The platform has been built and customized by ANVIREXMORANTA HOLDING PRIVATE LIMITED using the **ERPNext, HRMS, and Frappe Framework core** functionality, with additional proprietary modules, workflows, and business processes tailored to meet the Company's operational and compliance requirements.

The system will serve as the Company's permanent enterprise platform for managing accounting, finance, payroll, human resources, procurement, inventory, assets, customer records, projects, taxation, compliance, workflow automation, document management, and other authorized business operations.

This implementation strengthens the Company's digital infrastructure by improving operational efficiency, financial transparency, data integrity, internal controls, and corporate governance while supporting future business growth.

The Company will continue to enhance and expand the platform by developing additional custom modules and integrations based on business requirements. Such updates and improvements shall not affect this official adoption.

About the Platform

The Company's ERP & HRMS platform is a customized enterprise management solution developed by ANVIREXMORANTA HOLDING PRIVATE LIMITED using the core functionality of ERPNext, HRMS, and the Frappe Framework, with proprietary customizations designed specifically for the Company's business operations and internal processes.
